## REPORT OF THE SUPERINTENDENT

---

The abnormal conditions prevailing this year have had a marked effect upon the schools of the state. At the beginning of the school year the demand for teachers far exceeded the supply and it was necessary to place in many schools inexperienced high school graduates to carry on the work. Just as the schools got into good running order the epidemic came and the schools of the state were closed for several weeks. After the schools were reopened sickness among the pupils caused such irregular attendance that the work of the school was interfered with to an alarming degree.

In all these afflictions Rumney has shared, but in far less degree than more unfortunate towns around her. The Depot school has been the worst sufferer, and it was well on toward Christmas before this school got well established in its work. Several changes of teachers, including substitutes, in the grammar room added to the confusion, and the same thing might be said of the conditions early in the year at Quincy. The schools, however, have been running in good order since mid-December, and the teachers have been most untiring in their efforts to make up for these adverse conditions.

The following is the list of teachers in our schools with the number of pupils at present in attendance :

Village Grammar, Miss Lela M. Clough,	19 pupils
Village Primary, Miss Ruth E. Russell,	14 pupils
Depot Grammar, Miss Emily E. Cook,	8 pupils
Depot Primary, Miss Mary R. Russell,	21 pupils
Quincy, Miss Ada I. Birch,	15 pupils
West Rumney, Miss Nellie Ashley,	9 pupils

Four pupils from the West side are attending the West Plymouth school, and two pupils from Plymouth

are attending the Quincy school. The school at Stinson Lake has not been under my charge.

Some few changes were made last fall in the school curriculum to make it conform more nearly to the approved State requirements. Ancient and English history reading texts for the fifth and sixth grades, elementary geometry, algebra and science in the seventh and eighth grades were introduced. The schools are not together in their work, and there is a wide difference in the same grade in the various schools. Your superintendent is at work on an outlined course of study for all your schools, which if adopted by the school committee will insure the same minimum requirements for each grade, and the same essentials being taught in each school in the same order and at practically the same time. In the meantime, a strong effort is being made this year to bring the grades to the same standard in all these minimum essentials so as to be in better position to work together another year.

Regular attendance is absolutely necessary for the promotion of the pupil from grade to grade, and parents should make every possible effort to send their children even though only six years old to school every day it is in session. The prevailing sickness has prevented the enforcement of the regular school law but it must be strictly carried out in the spring.

Pupils may, hereafter, be admitted to Plymouth High school on the certificate of your superintendent. This privilege will be extended to those pupils who cover the work of the grammar grades in a creditable manner.

I wish to thank the school committee for their hearty cooperation and assistance.

Respectfully submitted,

C. M. HARRIS, Superintendent.

## REPORT OF SCHOOL BOARD

---

Our schools, like those of most other towns, have suffered considerably from the influenza epidemic, which obliged us to close for a time, and which has had a bad effect on our attendance. Because of the time lost, it is hardly likely that we can have quite our usual number of weeks of school this year. We have been able to keep several of our last year's teachers who have proved efficient, as in the past. We have paid higher salaries in all our schools, and even now the securing of capable teachers is a good deal of a problem. We have been obliged to regretfully accept the resignation of our fellow member, Mr. E. A. Ray, and his place remains unfilled. The voters of the district having declared themselves very strongly in favor of expert supervision, Rumney has been since September first a part of the district in charge of Mr. C. M. Harris, with whom our relations have been most pleasant. Mr. Harris has been given entire charge of the school work, and his report of its progress will be found elsewhere. The matter of school accommodations at Stinson Lake, which was left in our hands, was settled by the purchase of a vacant store building, and a well attended school is being maintained there. For convenience and economy, several of our pupils have attended the Baker River school in Plymouth, and one has attended Campton Bog school. A new furnace has been installed at the Depot school, and many smaller repairs made on the other buildings. Quite a lot more remains to be done in the near future. The Bethesda Home school, with Miss Elsie Carter as teacher, was visited and approved. Last year's per cent of attendance was 94.7, for which we received from the state \$167.90.

We recommend for next year's appropriations :  
for high school tuition, \$800; for books and supplies,  
\$300; for salaries of district officers, \$200; for main-  
tenance of flags, \$15. In compliance with the new law,  
the financial statement and statistical tables are for  
the year ending Aug. 31, 1918. We would again ex-  
press our appreciation of the courtesy and cooperation  
of so many of those with whom we have been asso-  
ciated during the past year.

Respectfully submitted,

ELMER B. WALLACE, Chairman,  
for the School Board.

ELMER B. WALLACE,  
EVELYN R. ELLIOTT,  
School Board.
